EMPLOYMENT

University of Florida, Institute of Food and Agricultural Sciences 2025–2027
Postdoctoral Associate, Community Food Systems (Research and Extension)

EDUCATION

The Ohio State University 2021–2025
Ph.D., Consumer Sciences (Economics Track), 2025
Master of Applied Statistics, 2024

University of Michigan 2019–2021
M.A., Applied Economics, 2021
M.S., Industrial and Operations Engineering, 2021

University of Minnesota Morris 2016–2019
B.A. with High Distinction, Economics, 2019

RESEARCH AREAS

Foodborne Disease Attribution and Burden · Consequences of Foodborne Disease · Behavioral and Institutional Responses to Food Safety Risks · Community Food Systems

TEACHING INTERESTS

Applied Microeconomics · Health Economics · Food and Consumer Economics · Quantitative Methods · Program Evaluation

SELECTED GRADUATE COURSEWORK

Economics: Advanced Agricultural Economics; Microeconomic Theory I and II; Health Economics; Experimental and Behavioral Economics

Quantitative Methods: Design and Analysis of Experiments; Linear Models; Applied Bayesian Analysis; Statistical Machine Learning; Survey Sampling; Missing Data; Stochastic Processes; Linear Programming; Optimization

JOURNAL PUBLICATIONS

WORKING PAPERS

1. **Yang, X.**, A. S. Hanks, and R. L. Scharff. "Information Exposure and Consumer Responses to *Cyclospora* Outbreaks in the U.S. Bagged Salad Market." Revised and resubmitted, *Risk Analysis*.
2. Omidvar, R., **X. Yang**, C. G. Campbell, and R. Farzad. "Understanding the Adoption of Cell-Based Fishmeal among Aquaculture Farmers: Perceptions, Beliefs, and Barriers." Revised and resubmitted, *Future Foods*.
3. **Yang, X.**, C. G. Campbell, N. Cohen, G. A. Kiker, and Z. Boz. "Beyond One-Size-Fits-All: Food-Type-Specific Shopping Interventions for Household Waste Reduction." Under review.
4. **Yang, X.** and C. G. Campbell. "Foodborne Source Attribution of *Cyclospora cayentanensis* in the United States: A Bayesian Framework for Weighting Simple and Complex Outbreak Evidence." Under review.
5. **Yang, X.**, C. G. Campbell, N. Cohen, and Z. Boz. "How Representative Are Citizen Science Food-Waste Panels? Sample Composition, Determinant Selection, and the Limits of Demographic Correction." Under review.
6. **Yang, X.** and C. G. Campbell. "Same Households, Different Conclusions: Attitude-Discard Associations across Food Types in Diary and Follow-Up Survey Records." Under review.

RESEARCH EXPERIENCE

Food Safety Economics and Risk Communication

2021–Present

Selected projects supported by USDA NIFA SCRI and OSU SEEDS

- Estimated commodity-specific foodborne disease attribution, health burden, and costs using outbreak surveillance and electronic health records; developed Bayesian source-attribution models for *Cyclospora cayetanensis*.
- Analyzed consumer and market responses to produce-safety outbreaks using NielsenIQ retail-scanner and consumer-panel data linked with Google Trends.

Household Food Waste and Consumer Behavior

2025–Present

IFWASTE Project; FFAR Food Waste Challenge and USDA NIFA Hatch

- Analyzed citizen science panels to identify household segments, daily behavioral patterns, food-type differences, and shopping interventions associated with food waste reduction.

Farm and Sea to Campus

2026–Present

USDA SARE Southern Region proposal, funding pending

- Built IMPLAN input-output models to estimate local-procurement multipliers for university dining systems and co-wrote the pre-proposal as a Co-PI and the full proposal as Key Personnel.

EXTENSION, EVALUATION, AND PROJECT LEADERSHIP

Growing Urban Agriculture Resilience and Development (GUARD)

2026–Present

USDA SARE Professional Development Program, University of Florida/IFAS

- Developed 13 ADA-compliant Canvas modules with embedded quizzes, instructor transcripts, and train-the-trainer materials for Florida Cooperative Extension educators across all 67 counties.
- Leading the fall 2026 evaluation design, including a paired pre-post Theory of Planned Behavior instrument, pilot timeline, collaborator coordination, and quantitative analysis.
- Pilot: 10 selected farmer reviewers and an additional group of approximately 40 farmers and community gardeners. Planned expansion: approximately 100 participants across additional Florida counties.

Healthy Harvest

2026–Present

University of Florida/IFAS

- Developing the fall 2026 implementation timeline and evaluation plan for county-level program delivery; reviewing prior paired pre-post data and assessing local-food and health outcome measures.
- Coordinating milestones, responsibilities, and evaluation tasks with Extension agents, faculty collaborators, and undergraduate research support.
- Pilot: approximately 40 participants in three Florida counties.

TEACHING EXPERIENCE

University of Michigan

Tutor: PUBPOL 639: Quantitative Methods and Evaluation	2021
Grader: MATH 417: Matrix Algebra	2021
Teaching Assistant: STRATEGY 503: Global Business and Strategy	2020

University of Minnesota Morris

Teaching Assistant: ECON 3501: Introduction to Econometrics	2019
Peer-Assisted Learning Facilitator: ECON 1111: Principles of Microeconomics	2019
Teaching Assistant: ECON 3201: Intermediate Microeconomics	2018
Teaching Assistant: ECON 1112: Principles of Macroeconomics	2018

PROFESSIONAL DEVELOPMENT

Preparing Future Faculty Program, University of Florida *Fall 2026*
Selected participant in a semester-long program on evidence-based teaching, mentoring, and faculty roles

SELECTED CONFERENCE PRESENTATIONS

2024	IAFP Annual Meeting, Long Beach, CA, USA
2023	IAFP Annual Meeting, Toronto, ON, Canada
2023	American Council on Consumer Interests Annual Meeting, Las Vegas, NV, USA
2022	IAFP Annual Meeting, Pittsburgh, PA, USA

HONORS AND AWARDS

Doctoral Training, The Ohio State University

Darlene Matthews Scholarship	2024
Dyers and Cleaners Fund, Ohio Association of Dyers and Cleaners	2023
Student/Young Professional Conference Scholarship, ACCI	2023
EHE Graduate Student Travel Award	2022
Slabaugh Scholarship	2021

Undergraduate Training, University of Minnesota Morris

Chris Berg Memorial Award (Outstanding Senior Economics Major)	2019
Scholar of the College	2019
Undergraduate Research Opportunity Program, University of Minnesota System	2019

SKILLS

<i>Programming:</i>	R, SAS, Stata, Microsoft Office, $\text{\LaTeX}$
<i>Data:</i>	NielsenIQ Consumer Panel and Retail Scanner; electronic health records; LexisNexis News Archive; NORS outbreak surveillance; Google Trends; Qualtrics; citizen science panels
<i>Languages:</i>	English (fluent), Mandarin (native)
